FOR IMMEDIATE RELEASE

Lollicup USA to open warehouse in Wilmer, TX

CHINO, CA (May 16, 2016) – Lollicup USA Inc. is continuing its constant streak of success with another exciting new development.

This summer, Lollicup USA Inc. will begin operating its new, 150,000 square-foot warehouse in Wilmer, Texas, about 20 miles from Dallas.

Lollicup USA has warehouse locations in Chino, CA; Sumner, WA; and Summerville, SC. The latest addition will help the company better accommodate the southwest region of the United States, including Texas, Oklahoma and Kansas. The facility is set to open the first week of July.

This warehouse is only the first phase of an even larger expansion. Operations at this location will be temporary while the company builds its very own 450,000 square-foot facility in Rockwall, TX.

Once completed, the company will begin logistics and production, expanding its presence as a U.S.-based manufacturer.

Alan Yu, CEO and co-founder of Lollicup USA, said the construction is expected to be complete by the first quarter of 2018.

Lollicup USA will likely hire more than 200 employees for the new plant, significantly increasing its number of employees.

With this expansion, the company is expected to quadruple its manufacturing capabilities. It will also service its customers more efficiently by shortening shipping times within this region.

About Lollicup® USA Inc.
