Make the world a greener place by switching to Karat Earth® PLA disposables. Karat Earth uses only NatureWorks® Ingeo™ PLA plastics, derived from renewable sources that can be composted back into the earth as opposed to standard plastics derived from fossil fuels. PLA is nonvolatile and odorless compared to petroleum-based plastics. Karat Earth PLA flat and dome lids were designed to fit on 12-24 oz. cups, allowing for simplicity and easy storage. Add a logo or design to your cups using our custom print services.

Make the switch to PLA plastic portion cups, Karat Earth® offers eco-friendly portion cups, also known as soufflé cups, that are made of PLA plastic, a plant-based plastic that is derived from renewable sources that can be composted back into the earth as opposed to standard plastics derived from fossil fuels. The PLA plastic is clear, allowing easy visibility of contents, and it is durable and shatter-proof. The cups come with a matching lid that fits securely, making them leak-proof and spill-proof for easy transportation on takeout orders. Use our PLA portion cups to store or serve dressings, sauces, salsas, condiments, dips, and more. Switch Today! (Available in 2 oz. and 4 oz.)
