Polypropylene (PP) is usually semi-translucent but our Karat® PP Portion cups are thinner for a higher degree of clarity than average PP products. Karat PP Portion cups are durable, oil and chemical resistant and can hold up against temperatures of up to 200° F. Karat Portion cups are used for a wide range of products such as sauces, dips, jalapeños, coleslaw, butter, and more. PP is commonly recycled. Its resin identification is 5.

Karat® PP injection molded containers are made thicker for superior durability than normal PP containers. All injection molded containers are light-weight, oil and chemical resistant, dishwasher and microwave safe, they can hold up against temperatures of up to 200 F. Karat® Injection Bowls are sealable with our PP Injection Molded Lids and are used for a wide range of products such as soup, salad, and ice cream making them spill-proof. PP injection molded food containers are great for takeout orders and reheating leftovers. PP is a recyclable material and its resin identification is 5.

Our Karat® PP deli containers can be used for ready-to-serve food, for takeout, or to prepack specialty foods for store shelves. The regular deli containers can be paired with our one-size-fits-all lids and are translucent for easy viewing; whereas, our injection molded series can be microwaved or frozen and still maintain their form. All of the containers can be used for both hot and cold food, and are recyclable, with a resin identification code of 5. Durable and shatterproof, these containers are perfect for a variety of culinary creations.
